

OBJECTIVE

Skilled software developer with strong expertise in Python, C, C#, Java, HTML and CSS, and a solid educational foundation from a highly reputed college. Passionate about leveraging my programming skills and hands-on experience to contribute to innovative projects and drive advancements in software technology. Eager to apply my knowledge to create impactful solutions and excel in cutting-edge software development.

Experience

- IBM – Bangalore – Python Developer

Aug 2023– Present

Developed and maintained web applications and APIs using Python and Django, resulting in a 30% increase in application performance and user engagement.
Implemented automated testing frameworks with PyTest, ensuring code quality and reducing bugs by 40%.
Experienced Python Developer with a solid track record in designing, developing, and deploying efficient and scalable software solutions.
Skilled in utilizing Python frameworks such as Django and Flask to create dynamic web applications and RESTful APIs. Demonstrated ability to write clean, maintainable code and implement best practices for software development. Proficient in optimizing performance, automating tasks, and integrating with various databases and third-party services.
Adept at troubleshooting complex issues, conducting thorough testing, and collaborating with cross-functional teams to deliver high-quality software that aligns with business objectives and enhances user satisfaction.
- HCL Technologies – Bangalore – Python Developer

Dec 2022– May 2023

Seasoned Python Developer with extensive experience in designing, developing, and maintaining high-performance software solutions. Proficient in using FastAPI and Flask to build scalable and efficient web applications and microservices, focusing on achieving low latency and high throughput. Skilled in applying libraries such as Pandas and NumPy for advanced data processing and analytical tasks, and adept at integrating with PostgreSQL to ensure robust data management and storage solutions.
Demonstrated expertise in automating complex workflows, optimizing existing codebases, and enhancing application features to meet evolving business needs. Proven ability to troubleshoot and resolve intricate technical issues, collaborate effectively with cross-functional teams, and deliver solutions that align with both technical and strategic objectives, driving significant business value and user satisfaction.

Skills
